## ACTION WEEK

21-25 May 2012

Noise Action Week is an annual initiative coordinated by Environmental Protection UK (EPUK) which aims to raise awareness of the problems caused by noise in neighbourhood's and the solutions available to tackle it.

During Noise Action Week, organisations across the UK - including local authority noise, housing, health teams, antisocial behaviour teams, housing organisations, mediation services, schools and others - coordinate events at local level to educate and inform people about noise, the impact it has and how to reduce it. EPUK provides resources and support for participating organisations and works year round to raise the profile of noise issues nationally.

### Noise Action Week aims to:

- \* Encourage everyone to consider the noises we make and what can be done to reduce it.
- \* Raise awareness of the services available to help people tackle noise problems.
- \* Promote communication and consideration between neighbours.
- \* Educate and inform noise makers about the impact noise can have on our lives.
- \* Promote practical solutions to everyday noise problems.

## Get Involved!
