

## **Announcing the Publication of the *World Atlas of Atmospheric Pollution***

### **Special Offer for Environmental Protection UK Members**

The *World Atlas of Atmospheric Pollution* provides a beautifully designed, informative and comprehensive overview of the state of air pollution from city to global scales.

Ideal for air pollution and environmental professionals, the *Atlas* uses high-quality graphics and illustrations throughout. The *Atlas* begins with a historical perspective on air pollution and then focuses on urban air pollution, long range transport of pollutants, global air pollution and climate change, ozone depletion, environmental and health impacts and finally, future trends. Each chapter provides an informative, visually compelling representation of a specific aspect of air pollution and, wherever possible, gives a world-wide view of the state of our atmosphere.

Edited by Dr. Ranjeet Sokhi of the University of Hertfordshire, the *World Atlas* is an essential source of information for environmental professionals, scientists, consultants, city officials, air quality experts, industrialists, students, and policy-makers. Each topic is presented in a way that makes it accessible to the non-expert as well as to the more informed reader.

Key features of the *World Atlas of Atmospheric Pollution* include:

- Full colour throughout with a striking selection of maps, photographs and illustration
- State of the art overview of air pollution and its impacts on the environment from local to global scales
- Written and compiled by leading international experts in the field
- Comprehensively referenced and indexed.

ISBN 978-1-84331-289-5, 144 pages, full colour, hard cover, 363 mm x 269 mm

SPECIAL OFFER – 20 percent discount for members of Environmental Protection UK. Member's price per copy is £115.00 for UK residents and £123.00 for non-UK residents (postage and packing are included). Non-members will realize some savings by ordering through Environmental Protection UK, as well.

To order one or more copies of the *World Atlas of Atmospheric Air Pollution*, visit [www.Environmental-Protection.org.uk/shop](http://www.Environmental-Protection.org.uk/shop) .

This opportunity is possible because Environmental Protection UK is a member of IUAPPA, the International Union of Air Pollution Prevention and Environmental Protection Associations. IUAPPA sponsored the *World Atlas of Atmospheric Pollution*.
